ACOUSTIC PRINT

Acoustic Print is the perfect solution to create a customised, on-brand, wall graphic within any workplace, school, retail space.

With zero impact on the acoustic properties of this product, acoustic print can bring any space to life, whilst also reducing the noise amplification and deflection within a workspace.

PATTERN

The Informe Pattern collection represents an assortment of hand selected designs to match interiors offices, schools and work spaces.

The high-end finish, which has a fabric-like appearance makes these a desirable finishing material that will stand out, and in the right way.
